

Coming up:

- Our major event this year will be an Eco Day at the Royston Museum in celebration of Big Green Week, on 14th June (<https://www.roystonmuseum.org.uk/event-details-registration/great-big-green-week-green-festival>). We have been working with various groups and the museum to put on a set of workshops on environmental topics, ranging from energy efficiency to bike maintenance to bug houses. There will be two showings of a film (<https://re-action-collective.org/actionism/>) during the day. You can already sign up for bookable workshops on Draughtbusting: <https://www.tickettailor.com/events/roystonmuseum/1648412>
- We will have a REG/Community Garden stall dedicated to swapping and sharing all things plant-related: plants, seeds, produce, planters/terracotta pots (not plastic). Bring your surplus and take away something new (to you).
- We will need helpers on the day so PLEASE do put the event in your diary and come and help out, even if just for an hour.

What we've been up to:

- Litter Pick as part of the Great British Spring Clean (22nd March). Great turn out and lots of waste was collected – well done to all our pickers.
- Participated with a REG stall at the Bee Corridor launch organised by NHC & John O'Connors in Priory Memorial Gardens. Thank you to all volunteers who came and helped on the day. Great fun was had by all.
- Enjoyed a relaxing drink and discussion with People Planet Pint – and we'll be back! Future dates are: May 19th and June 23rd, from 18.30 in The Old Bull. Sign up in advance to receive a free drink! (<https://www.eventbrite.co.uk/e/royston-small99s-people-planet-pinttm-sustainability-meetup-tickets-1273701949819>)
- Thermal Imaging. The season for this is now over but we are already looking forward to autumn, when we can help more families save money and reduce heat loss. Details on our website (<https://frierley.com/roystonenvirogroup/thermal-imaging/>)

What else?

We urgently need additional committee members to join us to help with the creation and organising of current and future activities. If you have a passion for all things environmental, and a little spare time, please do get in touch to chat.
